Semi-Detached House

Price € 1,200,000

Gaucín

Costa del Sol

Spain

Bedroom: 5

Bathroom: 6

---

An exceptional opportunity to live wonderfully and / or to make use of the possibilities, such as a Bed & Breakfast, an event location and / or a restaurant.

This totally renovated historic home was built in the 18th century as part of a monastery. It is south facing with beautiful light from the entire property and panoramic views of the green surroundings, Gibraltar and Morocco.

Currently, the house has 3 kitchens, 6 bathrooms and 5 bedrooms, (multiple bedrooms can easily be built). Also a 17 meter long heated salt water within swimming pool, garage for 3 cars and a fitness room. There is a separate service entrance that runs from the street to the laundry room, the kitchen and the garage.

The house has three floors and all are independent. The upper floor is an ideal rental unit. The street level floor is a self-contained apartment. The ground floor would be an ideal restaurant.

The house was demolished at street level and a new floor was cast. the second floor is new construction. The roof, the interior walls, all plumbing and electrical installation and central heating were made new in 2001.

Located only 30 minutes from the coast and in a white village known for its many artists, painters and natural products.
